

### **Sandwich Maker Rules**

- The main goal of this game is to construct a BLT sandwich using the right ingredient cards, in the right order, before your opponent does.
- A BLT sandwich consists of a piece of Top Bread, Bacon, Lettuce, Tomato, and a piece of Bottom Bread, and the sandwich needs to be constructed using those ingredients in that specific order.
- The ingredients are presented as cards, and at the start of the game all of the ingredient cards would be placed face up on the table with the players having 15 seconds to memorize the location of each of the needed ingredients.
- There will be 2 of each required ingredient card in the initial pile, with 5 random ingredient cards in there to throw players off.
- Once the 15 seconds are over all the cards are turned face down, and the players have to pick out the right ingredients, in the right order based on memory.
- Whoever gets the right ingredients out in fastest time, in the right order wins the game.
