

# Group Values Statement

These are the values we all agree will be respected during our production process:

- Respect each other's time
- Respect each other
- Listen to everyone's ideas
- Be responsible for your part of the project

We have decided on the following weekly check-in times outside of class and section:

Tuesday and Friday at 10:00 am.

We have set up the following tools/systems for communicating, digitally meeting, and sharing work with each other:

<https://discord.gg/FNCw3HfZ>

We will have discord calls on Tuesday and Friday and occasionally meet in person.

We agree on the following procedure or process for handling concerns and disputes:

Take the day off to cool down, then talk it out the next day. All members should be present so someone can mediate the meeting. If the problem escalates, we will contact the TA to help us solve the conflicts (not going to happen).

By adding our names to this turn-in, we each acknowledge our shared intent to respect our agreed-upon values and process to the best of our ability.
